

ABHISHEK RAWAT

Frontend Developer | ReactJS | NextJS | JavaScript

+91-8595817445 | ar.webdev99@gmail.com | https://www.linkedin.com/in/dev-abhishek-rawat | New Delhi, India

EXPERIENCE (3+ YEARS)

Software Developer

OpenSense Labs

04/2024 - Present | New Delhi, India

- Maintained, optimized, and enhanced frontend features in Edredo, improving user experience and functionality.
- Developed the frontend of an NPO website from scratch using Next.js, Tailwind CSS, and TanStack Query, ensuring 100% on-time project delivery and contributing to a 25% increase in client donations.
- Implemented i18n translation features, making the website accessible in five languages.
- Optimized data fetching with TanStack Query, reducing data integration time by 30%.
- Identified and resolved frontend issues, decreasing reported problems by 20% and improving overall user satisfaction.
- Collaborated with QA teams, prioritizing and resolving reported bugs to ensure a seamless user experience.

Tech Stack: JavaScript (ES6), React, Next.js, Redux, Redux Toolkit, React Router, Babel, Webpack, HTML, CSS/SCSS, Framer Motion, Tailwind CSS, Styled Components, Git (GitHub, Bitbucket, GitLab).

Associate Software Developer

OpenSense Labs

02/2022 - 03/2024 | New Delhi, India

- Developed and maintained 3+ web applications, improving performance by 30% through code optimization.
- Designed and implemented reusable React components, reducing development time by 40%.
- Collaborated with UX/UI designers to enhance user engagement, leading to a 20% increase in conversion rates.
- Led API integration efforts, optimizing data fetching and caching strategies to reduce load time by 25%.
- Managed front-end state using Redux Toolkit and Context API, ensuring a seamless user experience.
- Worked closely with QA teams, resolving 80% of reported bugs within 24 hours.

Tech Stack: JavaScript (ES6), React, Next.js, React-Chart.js-2, CKEditor, Redux, Redux Toolkit, React Router, Babel, Webpack, HTML, CSS/SCSS, Git (GitHub, Bitbucket, GitLab).

Software Developer Intern

OpenSense Labs

08/2021 - 02/2022 | New Delhi, India

I worked as a JavaScript intern, contributed to multiple projects, solved various problems including actively identifying and resolving performance bottlenecks through comprehensive code analysis and optimization techniques, and converted business logic to code.

Tech Stack: HTML, CSS/SCSS, JavaScript (ES6), React, Next.js, Git.

PROJECTS

Edredo

https://edredo.com

I developed and maintained a scalable Next.js application, implementing custom reusable UI components and optimizing API integration for improved functionality. Enhanced global state management using Redux, leading to better performance in the Live Class and Profile sections. Conducted k6 load testing to ensure platform stability under high traffic conditions. Led the migration of the Quiz App from React v16 to React v18, improving compatibility, performance, and maintainability.

Tech Stack: Next.js, Ant Design, Styled-component, Next-intl, Redux, K6, Gitlab.

KEY SKILLS

Frontend

JavaScript(ES6)	React	Next.js
Ant-design	Redux/Redux-toolkit	
Context API	React-router	HTML5
CSS/SCSS	API Integration	
Styled Component	Framer-motion	
Material-UI	Tailwind CSS	TanStack query
Chart Libraries	Map Integration	

Tools and Technologies

Git	Github	Bitbucket	Gitlab	npm
Jira	Webpack	Babel	Figma	

KEY ACHIEVEMENTS

- Web Performance Improvement**
Reduced application load time by 35% by migrating old React app to Next.js app.
- Global Accessibility Expansion**
Integrated multilingual support, enhancing website accessibility in 5 languages.
- Successful Project Delivery**
Delivered projects on time, resulting in 25% donation increase for client.

EDUCATION

Master of Computer Applications

Uttaranchal University

07/2025 - 08/2025

Bachelor of Commerce

Delhi University

2017 - 2020

Intermediate

Sarvodaya Bal Vidyalaya

2015 - 2017

CERTIFICATION

Advance Front-End Web Development with React - Full Stack

Certified with Certificate of Excellence

PROJECTS

Forest4Farming

🔗 <https://www.forests4farming.org>
I developed and maintained the Forest4Farming website using Next.js, Tailwind CSS, and TanStack Query, implementing responsive design, animations, and interactive maps to enhance user experience. Integrated search functionality and multi-language support (i18n) for **five languages**, improving global accessibility. Collaborated with designers, developers, and project managers to ensure timely delivery, contributing to a **25% increase** in client donations.

Tech Stack: Next.js, TanStack Query, React-simple-map, Tailwind Css, Framer-motion, Next-intl, Ant Design, Bitbucket, Git, Gitlab.

Inspiration Travels

🔗 <https://www.inspirationtravel.com>
Developed a comprehensive Traveler Dashboard and an intuitive Checkout Flow, leading to a **30% improvement** in user engagement. Optimized API interactions by integrating Traveler APIs, which enhanced booking efficiency and reduced processing time by **15%**. Additionally, the implementation of a dynamic form improved data accuracy and usability, resulting in a **15% faster** page load speed.

Tech Stack: JavaScript, React.js, Redux toolkit, Ant Design, Git, Bitbucket.

Inspiration Travels Booking Engine

Designed an admin panel to streamline traveler data management, improving booking efficiency. Integrated Chart.js for analytics and CKEditor for template rendering. Used Redux Toolkit for state management and React Router for role-based authentication. Implemented APIs for real-time data sync, orchestrating a smooth cruise booking workflow and ensuring a flexible, scalable system.

Tech Stack: JavaScript, React, Redux toolkit, Ant Design, React-chartjs, Git, Bitbucket.

Apply Once

🔗 <https://www.applyonce.online>
Designed and built a centralized application portal, significantly reducing student application time by 50%. Leveraged Next.js SSR and CSR for optimal rendering performance and integrated Veri Once APIs for seamless real-time data synchronization and document verification. Also implemented role-based authentication, improving security and accessibility.

Tech Stack: TypeScript, Next Js, Ant Design, CSS-in-JS, Redux and Context API, Git, Bitbucket.

Veri Once

🔗 <https://www.verionce.com>
Developed an automated authentication system connecting Apply Once and Veri Once, ensuring a seamless login experience. Integrated multilingual support and dynamic web forms, broadening the platform's global accessibility. Enhanced document verification efficiency through blockchain-based authentication, ensuring security and reliability.

Tech Stack: Next.js, Redux, Typescript, Ant-design, Git, Gitlab.

Sanjose

🔗 Sanjose.org
Worked on successful integration of Lead Management System with third party web-form and API's which saves user data on Constant Contact.

Tech Stack: Javascript

CERTIFICATION

Front End | Full Stack Web Development
Certified with Certificate of Excellence
